

# Ronald Reagan's Secret Cancer Cure

Source: Al Sears, M.D.

There's no faster way to purify your body of viruses, bacteria and fungi — and at the same time ramp up your immune system — than a 125-year-old “cure” banned by the FDA.

I'm talking about ***ozone therapy*** — and it's not just good for cleansing your body.

*You see, ozone — a special “energized” kind of oxygen — can help heal almost any condition.*

Despite being banned by the FDA back in the 1940s, after more than 60 years of successful use, ozone therapy has saved millions of lives in countries where it has become a commonplace medical treatment.

In countries like Germany, Italy, France, Canada, and Russia, ozone therapy has become commonplace in hospitals and clinics as a treatment for dozens of issues as simple as eczema and as complex as cancer, heart disease, diabetes, depression, Alzheimer's and poisoning.

It's one of the safest medical therapies ever devised. It's highly effective and free of side effects.

It's also why the late-President **Ronald Reagan went to Germany to get ozone therapy for his cancer.** He died over a decade later of pneumonia — not cancer — at age 93.

No wonder the FDA and Big Pharma have been trying to stamp it out for the past 80 years. It's natural, inexpensive and can't be

patented. And it outperforms their expensive drugs. The global pharmaceutical industry is worth more than \$300 billion a year — and anything that threatens sales is going to draw heat.<sup>1</sup>

The good news is that thanks to health freedom legislation in recent years, you can now make your own choices about ozone therapy — although, the legality and availability in America still varies by state.

## **Why Ozone Therapy Works**

Ozone is a sweet-smelling, bluish gas that's common in nature. It's what makes the sky blue, and it's why the air smells so good after a thunderstorm.

Unlike the oxygen in the air you breathe, which has the chemical symbol  $O_2$ , ozone has an extra oxygen molecule. That gives it the symbol  $O_3$ .

Today, medical-grade  $O_3$  is made in special generators. And once this supercharged oxygen gets into your bloodstream, it has the **unique power to heal and detoxify.**

It naturally destroys disease-causing pathogens like bacteria, fungi, viruses and many different kinds of cancer cells.

You see, human cells thrive on oxygen. But the pathogens that cause disease can't live in high oxygen concentrations. These **anaerobic** (without oxygen) viruses and bacteria are unable to survive when they're surrounded with this very energetic form of oxygen.<sup>2,3</sup>

One study published recently in the *Journal of Infectious Diseases and Epidemiology* noted that with ozone therapy, “the world already has a most inexpensive, safe, and likely effective remedy for deadly viral diseases,” like influenza and coronavirus.<sup>4</sup>

It also noted that ozone, which has already been shown to be effective against a number of dangerous germs like Ebola and HIV and has the power to inactivate the coronavirus protein directly by launching an “ozonide attack” on vulnerable signaling chemicals in the virus.

At the same time, ozone supercharges your immune system. It triggers the production of *cytokines*, key signaling molecules that regulate immunity, inflammation, and the production of immune cells.<sup>5</sup>

This special oxygen also gives you boundless energy. When you have low oxygen, it starves your **mitochondria**, the tiny power plants inside your cells.

These little cellular furnaces need oxygen to make energy. But when oxygen levels drop, your energy takes a dive. You feel tired and your immune system starts to falter.

Ozone therapy saturates your cells with high-energy oxygen. It helps restore and replenish your mitochondria, allowing your cells to perform at a younger, more vibrant level.

Getting ozone therapy is easy, and it's one of the most pleasant medical treatments.

Here at the **Sears Institute for Anti-Aging Medicine**, I provide ozone therapy to my patients using a technique called *autohemotherapy*. This is a fancy name for the "blood method," and it's the most effective way to get ozone into your body. Here's what I do:

- I make O<sub>3</sub> from O<sub>2</sub> with a special ozone generator.
- Then I draw a small amount of the patient's blood.
- Next, I infuse the blood with medical-grade O<sub>3</sub> mixed with O<sub>2</sub>.
- Finally, I reintroduce the oxygen-rich blood back into the patient with an IV.

If you're interested in getting ozone therapy at the **Sears Institute for Anti-Aging**, please call my staff for information at **561-784-7852**.

### **3 Ways to Use Ozone at Home**

Although not as medically effective, there are several ways to harness the power of turbo-charged oxygen at home:

1. **Ozonated Water:** Super-oxygenated water boosts your immune system, and eliminates microbes and toxins in your blood. In addition to drinking ozonated water, you can tap into its healing powers by swabbing it on cuts, rashes, stings and sunburns.

You can make your own ozone-infused drinking water with a machine called a “cold corona-discharge ozone generator.” And be sure you drink it before the ozone breaks down into regular oxygen. Ozonated water is also available in some health food stores and online.

2. **Ozonated Olive Oil Paste:** This oxygen-infused salve is one of my favorite natural healers. You can rub it on cuts, burns, sores, boils, sunburn, infections, dermatitis, fungal infections, and insect bites and stings. It disinfects, sterilizes, and reduces swelling and redness. And it promotes cell growth while reducing scarring.

It’s available in health food stores and online. **Buying Tip:** Make sure the product you buy comes from pure, cold-pressed, virgin olive oil.

3. **Ozonated Magnesium:** This combo is one of the best ways to ease constipation, and clean out a clogged colon.

Ozone’s extra atom of oxygen dissolves the build-up of impacted material and kills off bad bacteria. The results are a relaxed, free-flowing gut. **Buying Tip:** There’s a company called Global Healing that makes a very effective product called Oxy-Powder.

To Your Good Health,
